BACKGROUND

The NxLevel™ for Micro-Entrepreneurs course was developed by assembling an experienced team of people involved in micro-enterprise training through various groups including: SBA funded women and minority training organizations, business incubators, micro loan funds, community development corporations, and small business development centers. It is a 15-session course that explores achieving self-sufficiency through self-employment. Participants will learn the following as they develop their own written business plan:

- What it takes to be a successful entrepreneur
- How to develop and test their business concept
- How to select the best business entry option
- How to organize and manage their business
- How to research and market their business
- How to understand and get their financials in order
- How and where to get funding for their business
- How to determine the feasibility of their business concept
- Networking with other entrepreneurs

WHO SHOULD TAKE THIS COURSE?

This course is designed to benefit both current business owners and aspiring business owners needing to create a comprehensive business plan to take their business or business idea to the next level of implementation, growth and success.
